

IMMUNIZATION REQUIREMENT

A Pennsylvania Law forbids the enrollment of a student into schools without assurance of compliance with the new immunization rules. Students in every grade must have the following immunizations:

- | | | |
|----|--|---|
| 1. | DIPHTHERIA, TETANUS
DPT or DT | Four properly spaced doses of DPT or DT.
Fourth dose must be after fourth birthday. |
| 2. | POLIO | Three doses of oral vaccine, or
Four doses of inactivated. |
| 3. | MEASLES | Two doses of live vaccine, or
A blood test showing immunity. |
| 4. | RUBELLA (GERMAN MEASLES) | Two doses of live vaccine, or
A blood test showing immunity. |
| 5. | MUMPS | Two doses of live vaccine, or
A written statement from a physician verifying
the child had the disease. |
| 6. | HEPATITIS B | Three doses of Hepatitis B vaccine. |
| 7. | VARICELLA (Chicken Pox) | Two doses of the vaccine, or
History of Disease, or
Laboratory testing showing immunity |

FOR STUDENTS ENTERING SEVENTH GRADE:

In addition to the immunizations listed above, students entering seventh grade must have the following:

- | | |
|--------------------------------------|--|
| Tdap | One dose (if 5 years has elapsed since last
tetanus immunization) |
| MCV (meningococcal conjugate) | One dose |

You should have received an immunization card from your former school district if you lived in Pennsylvania. If you have the card, submit it with your completed registration form. Our school nurse will review the card to insure that your child is in compliance with the law. Any discrepancies will be brought to your attention.

If you are from out of state, you should obtain evidence that your child has received the immunizations listed above. Your child must have an up-to-date immunization record before we can allow admission.

Please be advised the enrollment cannot be considered complete unless your child is fully immunized. We trust that we will have your cooperation.
